

AGP's Exciting Week: UTeM x Talentbank Career Fair and ILP Bukit Katil Melaka Interaction Day

May 29th & 30th, 2024: UTeM x Talentbank Career Fair

AGP is pleased with its successful participation in the UTeM x Talentbank Career Fair, held on May 29th and 30th, 2024. The event brought together a diverse group of students and job seekers, all eager to explore potential career opportunities and build connections with leading industry players. AGP's presence at the fair was marked by a robust and engaging booth that attracted a steady stream of visitors over the two days.

Our team took the opportunity to present AGP's background, core operations and the breadth of career opportunities available within our organization. We also highlighted our ongoing projects, technologies, and the dynamic work culture that fosters growth and development for our employees.

We would like to extend our sincere thanks to everyone who visited our booth. We were impressed by the caliber of the attendees, who demonstrated a high level of interest and enthusiasm for the opportunities we presented.

May 31st, 2024: Interaction Day with Industrial Training Institute (ILP) Bukit Katil Melaka

Following the career fair, AGP had another significant engagement on May 31st, 2024, with the Industrial Training Institute (ILP) Bukit Katil Melaka. This Interaction Day was dedicated to providing ILP students with a deeper understanding of our company and the exciting opportunities we offer.

The day began with a comprehensive briefing session where we introduced AGP's background, core operations and ongoing projects. Students learned about our journey, our mission, and how we have grown to become a leader in our field.

A key focus of the briefing was our Meister program, a two-year training initiative designed for students to gain advanced diplomas while working with us. This program is unique in that it provides double certification, namely an advanced diploma and a Meister program certificate. It offers students a blend of academic knowledge and practical experience, preparing them for successful careers in their chosen fields.

The briefing session was followed by an interactive Q&A, where students had the chance to ask questions and gain more insights into AGP and the Meister program.

The second part of the day was dedicated to interviewing those interested in joining the Meister program. We conducted one-on-one sessions to understand each candidate's aspirations and how they align with the opportunities AGP offers.

Overall, the Interaction Day was a success, providing us with a platform to connect with motivated students and offer them pathways to kickstart their careers. We are excited about the prospects of welcoming some of these bright minds into AGP family through the Meister program.

Conclusion

The past week has been an exciting journey for AGP. We remains committed to engaging with and supporting future talents, and we are excited about the possibilities that lie ahead as we continue to foster relationships with educational institutions and participate in career fairs.
