

Strengthening Our Sustainability Commitment: NHF Community Care Drive 2024

As part of New Hoong Fatt (“NHF”) Group’s sustainability commitment under the Social pillar, our team recently visited four charity homes across Klang to deliver our physical donations, which has positively impacted around 140 beneficiaries with different vulnerabilities, including the elderly, differently abled individuals, and children. The selected homes are:

- Persatuan Rumah Kebajikan Sri Baba Klang

- Persatuan Kebajikan Kasih OKU Selangor
- Persatuan Jagaan Kanak-Kanak Ekliptik Klang
- Pusat Jagaan Warga Emas Destini Klang

During these visits, we witnessed the conditions of the homes ourselves and took the opportunity to engage with the homes' residents. And, importantly, we were proud to hand over our contributions, which included physical items like food supplies, mattresses, bed frames, milk, diapers, and water filters, as well as lend our financial support for physiotherapy sessions and facility improvements.

Seeing their appreciation was a touching reminder of the positive impact small contributions can have.

Leaving a Lasting Impact

These visits allowed us to extend our support to different vulnerable groups—elderly, differently-abled individuals, and children. Through initiatives like this, we aim to make a

tangible difference in our communities. We look forward to future opportunities where we can further support and uplift those in need.
